**Dressing sport as a manufacturer with a tailoring culture.**

We dedicate the same care and professional approach to every customer

## OUR HISTORY AND OUR OBJECTIVES ARE ILLUSTRATED IN THESE PAGES.

*Our heart is in Italy, but our mind allows us to travel the world, in every sport and at all levels.*

Since 1988, we've been producing sports and technical clothing able to boost the performance of those who love practising and experiencing sport, guaranteeing top standards of quality, safety and comfort. Customer service and care are our priority: our primary responsibility is to attend to and meet our customers' needs.

What sets us apart from our main competitors is that we are the first company in the teamwear sector in Europe to have obtained Oeko-Tex Standard 100 certification, a further demonstration of why we can be proud of the work we do every day.

The entire production chain is managed at its headquarters in San Polo di Torbole, along with the development of all the manufacturing stages: from the selection of raw materials to the design of the graphics, from prototype production right up to the shipment of the finished garments. We have chosen to produce our own items because it allows us to guarantee maximum safety, thanks to the meticulous checks we carry out in-house.

Every day, our efficient corporate management strives to monitor and improve organisation and control, optimise processes and reduce inefficiencies, thus boosting the quality of our products and services. This sterling effort we make every day has earned us ISO 9001:2015 certification.

Today we are present in 80 countries and constantly on the lookout for new markets and challenges.

Only take on the opponents you know. Ti-energy®3.0, our new **antiviral, antibacterial, antimicrobial and waterproof fabric**, will take care of the rest. Thanks to the zinc oxide nanoparticles permanently incorporated into the fibres and the Minusnine j1 + treatment, this yarn combats, prevents and inhibits the development of invisible enemies while also creating a barrier against water, mould and unpleasant odours. Furthermore, it is **Oeko-Tex® Standard 100 Certified** which means it meets extremely stringent restrictions governing harmful substances. It has taken us twelve years to create a fabric as evolved as Ti-energy®3.0. It will take you just seconds to feel more protected than ever before. **With Erreà, sport, health and safety always run hand in hand.**

\*Tests performed in accordance with ISO 18184 using the SARS-CoV-2 virus, have proved that in the laboratory, Ti-energy® 3.0 can reduce the viral load by 99.85% compared to a standard polyester fabric six hours after coming into contact with the virus.

Ti-ENERGY.  
BORN TO PROTECT.

WE  
STAND  
FOR CLEAN  
SPORT.  
EVEN FOR  
YOUR  
SKIN.

Sport is the most beautiful thing in the world, and nothing must be allowed to pollute that beauty. That is why, besides developing increasingly high-performance materials that have a low impact on the environment, we at Erreà are the first teamwear company in Europe to have been awarded **STANDARD 100 by OEKO-TEX®** certification. This certification sets extremely strict limits for substances harmful to health, which is why our fabrics are highly safe in all conditions.

**With Erreà, sport and health run side by side.**
